That Negro Rising in Georgia.

When the news of a conspiracy among the Georgia negroes to massacre the white people was first telegraphed, we expressed the belief that it would be found either a hoax, or a movement on the part of the white men themselves to intimidate the negroes. As the mail brings fuller details, this prediction is in a fair way to fulfillment. The facts, as ascertained, are substantially as follows: The white Democrats of Georgia, in pursuance of that enlightened policy which decides that the best way to avoid the evils of an ignorant suffrage is to prevent the substitution of knowledge for ignorance, have carefully abstained from according the negroes any educational facilities. But at the same time they have adopted a system which at once enables them to make a pretense of providing schools, and to deprive the negroes of the franchise. The last Democratic Legislature passed a law levying a poll-tax of one dollar, nominally for the support of public schools. It was also decreed that no man should be allowed to vote until he had paid his poll-tax, and illegal voting was punished by imprisonment for some seven to ten years. Lest the negroes should be able to pay the poll-tax (for which, be it said, no schools have ever been provided,) the law was made retrospective, and it was ordered that it be collected for three previous years, with accrued interest. Thus every negro was forced to pay at least four dollars before he was allowed to vote, and taxes and interest in many cases were made to amount up to $30. It is hardly necessary to comment upon the character of the party that could deliberately pursue so infamous a policy, and could so coolly trample under their feet all constitutional requirements, and all respect for Republican institutions. Their plan embraced several objects. They defrauded the negro of his money. They defrauded him of his education. They defrauded him of his right to the franchise. And finally they laid a trap by which they were enabled to subject him to practical slavery. It is impossible to read these revelations without feeling that if the outraged and swindled negroes had really risen against their rascally oppressors, and killed some of the worst knaves among them, the moral and political health of Georgia would have been improved by the occurrence. But in fact nothing was farther from the intention of these poor be-devilled wretches than a massacre. The truth is that they began to inquire among themselves whether there was no remedy for the condition of things under which they were suffering and being fleeced, and one of their leaders finally issued a call for a Convention, the main object of which was to discuss the vital question, "why we should have to pay more than one dollar poll-tax, and no public schools established for the elevation of our race and children?" Outside of Georgia it would have been thought quite natural and proper that the negroes should assemble in Convention to consider a problem which affected their welfare so nearly. But the Georgia Democrats appear to have taken alarm at once, and to have decided that movements of this kind must be put down. In their opinion it was an unheard-of peace of effrontery that their late chattels should presume to think for themselves. If this sort of thing were permitted there was no telling where it would end. Some of these days the negroes might elect their own candidates, and actually procure the repeal of the obnoxious poll-tax law, not to speak of the danger that they might insist upon school facilities for their children. So it was resolved to put a stop to the agitation, and the venerable expedient was resorted to, of accusing the negroes of a wide-spread conspiracy against the whites. No doubt it was calculated that the dissemination of this story would alienate the sympathies of the country from the Georgia negroes, and place them in so perilous a position that they would be glad to secure freedom from molestation at almost any sacrifice. But the cunning contrivers of this plot had failed to take into account the most important factor in the situation—the ubiquitous news reporters, who ruthlessly prick every sensation bubble, and telegraph the naked facts over the length and breadth of the land. Of course, the letters alleged to have been written by negro leaders, giving orders for a massacre of the whites, were, as we intimated at first, fabrications. The bogus character of the whole story is further indicated by the peaceable way in which the negroes everywhere submitted themselves to arrest, and in fact it is perfectly clear that whatever danger has existed in the situation has been lest the white Democrats should perpetrate another Coushatta massacre. What the end will be it would be useless to conjecture, save that the negroes must organize and act in concert through politics, if ever they are to regain their rights. As regards the school question, however, we think it evident that the Georgia Democrats are at least in as urgent need of education as the negroes can possibly be.—*Record-Union.*

The Celtic Dying out in Ireland.

It is very probable that the use of the Celtic tongue will eventually die. It is by no means so much in vogue with the rising generation as it was with the former. There are but few persons now, even among the old, who really, "have no English," as the phrase goes: although many will pretend that this is the case for purposes of their own. I believe, also, that the peasants would by no means wish their superiors to learn their speech. Nevertheless, they will express approval and admiration of any efforts made in this direction. Both Protestants and Romanists mutilate and distort the Saxon language in the most wonderful manner. They are as fond of long and difficult-sounding words as the negroes are said to be. They are even ingenious enough to mount polysyllabic terms, on the spur of the moment, when memory fails to bring forth any compound sufficiently startling. "Oh, sir, you give us a very fine allegation to-day," a respectable man said to his clergyman once. Now, if the time had not been immediately after morning service; there might have been some difficulty in discovering that the subject of commendation was a sermon. A maid-servant on one occasion angrily called a troublesome child "the most ecclesiastical boy she had ever seen in her life," as the greatest term of reproach she could think of, and the same woman described a Fenian gathering as "a wonderful triangle of people." Then, when one of the gentry was ill in a country neighborhood, there were many inquiries made as to whether he would be likely "to intercede," meaning were there hopes for his recovery. A dispensary becomes an "expensary," the excise service "the outside." To expect is to "inspect," and vice versa. A cypress-tree is a "cypher," a surplice a "cypress," an inn "an end," and so, ad infinitum. The staple malady and cause of death in Ireland is a pain or stitch in the heart, but the peasants also suffer occasionally from "a great impression," and a "fluency on the chest." The most grateful can find no richer or more elegant mode of expressing thankfulness for some favor done than to wish the patron "a blanket of glory in Heaven."—*Argosy.*

—A good double pun has been made by a clergyman. He had just united in marriage a couple whose christian names were respectively Benjamin and Ann. "How did they appear during the ceremony?" inquired a friend. "They appeared both Annie-mated and Bennie-fitted," was the reply.

—A rustic couple, newly married, marched into a drug store and called for soda water. The obliging clerk inquired what syrup they would have in it, when the swain, deliberately leaning over the counter, replied: "Stranger, money is no object; put sugar in it."

—Mr. Gladstone—"Please, 'm, is the Church of England worth preserving?" Britannia—"Worth preserving! Dear me, William, don't you know it's been in a pickle this ever so long?"—*Punch.*

☞ **The circulation of the TRIBUNE is double that of any paper published in Alameda county.**

Judge Dwinelle yesterday rendered an important decision in regard to the [illegible] of 1875, in which he decides the [illegible] of that year unconstitutional, and that money paid under protest [illegible] be refunded.

At the [illegible] of the friends of W. [illegible], to be held in San Francisco, at Union Hall to-morrow night, it is expected that [illegible] Mills will relieve himself from the unhappy predicament to which he has been placed by the [illegible].

[illegible] Fitch and Pickering [illegible] a Bacchanalian dance [illegible] of Ralston at the [illegible] totally credited, [illegible] upon the dead banker's reputation [illegible] enough to prove that they are capable of anything low, [illegible].

An Indian war has broken out in southern Nevada and Utah, which threatens to become serious unless prompt measures are taken to suppress the outbreak [illegible]. Several [illegible] against the [illegible]. Gov. Bradley has called upon the United States authorities for assistance, and General Schofield has dispatched troops to the scene of hostilities. It is [illegible] that the Mormons are the instigators of the difficulty. Further particulars will be found in another column.

[illegible] another column will be found a report of the Finance Committee of the City Council, which was read in open council last evening. For some reason it did not appear in the report of either of the morning papers. The TRIBUNE believes in giving the [illegible] of the council complete and fully on matters affecting the public interests. At the same time our columns are open to any explanations that will correct any misapprehension that may be occasioned by the proceedings.

The run upon the Trust Company was the most [illegible] of all the proceedings of the foolish panic. So far as the [illegible] are concerned they are controlled by the Government, and [illegible] opened. On Saturday [illegible] United States [illegible] in San Francisco, to [illegible] from Washington to [illegible] redemption of notes of the National Gold Bank and Trust Company. At 10 A. M. yesterday [illegible] commenced redeeming according to orders and at 2 P. M. [illegible] had been paid out, and [illegible] in gold notes taken in. [illegible] considered light, the indications being that [illegible] less than [illegible] sufficient to satisfy applicants for redemption. If more is required [illegible] will be placed at the disposal of the Treasurer. The bank has already redeemed all of its circulation [illegible] to date, and will continue [illegible] on demand. It is stated [illegible] will resume business by the first of next week.

The Oakland Observations in the [illegible] column, contained a wail over the defeat of Eben C. Farley, [illegible] on the County Clerk [illegible]. Mr. Farley is extolled as "one of the [illegible] and most popular men in Alameda county," and [illegible] as an act of [illegible] and altogether [illegible]. It is also claimed that [illegible] brought about through the [illegible] of two disappointed [illegible] at the last election." The [illegible] are these: Mr [illegible], County Clerk, says that he [illegible] Farley's services upon [illegible], and that he was not influenced thereto by anybody. Mr. Farley has always been a Democrat, except for a brief time when he was an Independent. He has been employed in the County Clerk's office most of the time for the past three or four years under a Republican administration and to the exclusion of capable and worthy Republicans. During the [illegible] he worked to defeat the Republican ticket, and he ought not to [illegible] to receive the treatment he [illegible]. The only wrong done politically, was in putting him in [illegible] in the first place, and this wrong was aggravated every day he was retained. In conclusion, we would suggest to the [illegible] people that they confine the Independent party who furnishes the "Observations" to his legitimate occupation, and not permit him to use their columns to gratify the personal spite of parties who are doing all they can to injure the *Vidette*, and the friends of that paper.

At the meeting of the City Council last evening three proposals were read from the *Transcript* and the *Ninth-Street Circular* for the city printing for the ensuing year. Following are the rates offered:

		Trans.	News.
[illegible]	[illegible]	$1 15	.40
[illegible]	[illegible]	.75	.30
[illegible]	[illegible]	4 00	.40
[illegible]	[illegible]	2 75	.40
[illegible]	[illegible]	4 00	.40

For the information of the public we will explain that 1,000 ems in the columns of the TRIBUNE and the *Ninth-Street Circular* occupies just 5½ inches of [illegible]. Hence, it will be seen, that the *Ninth Street Circular* offers to insert 5½ inches of city advertisements in its columns for [illegible] cents, this is equivalent to [illegible] one time, for 10 cents! One inch short of a yard!

It will be seen that the *Ninth street Circular* places very little value upon its space, compared with the TRIBUNE and *Transcript*, but the bids really express the relative value of space in the three papers. Of course the Council must award the contract to the cheap concern, if they believe the bid was made in good faith, coming in the same it did, it is open to suspicion. Great care should be exercised in drawing the bond that no loop hole be left for the "management" to creep out of, because they are bound to get mighty sick of their contract inside of twelve months—and, besides, the "new management" is slippery. When an indigent person offers to work for nothing, and find himself, he needs watching. Honest business men don't do that sort of thing.

ABOUT RECOUNTS.

At the meeting of the Board of Supervisors yesterday to canvass the returns of the election a petition for a recount was presented by the attorney of Tom O'Neil, candidate for Sheriff. The argument in favor of a recount by the Board was to the effect that the statute before the passage of the Codes provided for a recount by the Board, and that the Code provisions being substantially the same as the old statute should, under Section 5, Political Code, be construed as a continuation of the elder statute. But the vice of this position lies in the fact that the Code provisions are not substantially or at all the same as the old statute. Under Section 18 of the same Code, "No statute law or rule is continued in force because it is consistent with the provisions of this Code on the same subject, but in all cases provided for by his Code all statutes laws and rules heretofore in force in this State whether consistent or not with the provisions of the Code, unless expressly continued in force by it, are repealed and abrogated."

The Codes being the law of the subject matter it may be worth while to examine its provisions.

First The Code is full and complete as to the duties of all officers under election laws. Sections 1252 to 1268 describe the duties of the Election Board, and among other things provide for the custody of the ballots which are to be delivered sealed to the County Clerk, to be by him kept sealed twelve months, or until a contest be commenced in some proper tribunal, having jurisdiction of the subject matter. That upon such contest having commenced the Clerk shall, upon proper order, deliver them up.

Section 1278, and following, describe the duties of the Board of Supervisors as a Board of Canvassers to "Canvass the returns" and declare the result, and these returns comprise the tally list, copies of Great Register used, and footings of the Election Board.

Section 1111, and following, of Code of Civil Procedure, provides fully for the contest intimated by the Sections quoted. That any elector may contest upon any of the grounds which can exist. That the contest shall be a summary proceeding by affidavits before the County Clerk, who shall notify the County Judge; that the County Judge shall fix a day for the hearing, not less than 10 nor more than 20 days from the filing. That the defendant shall be cited and a hearing had. It is evident that the Legislature intended to take from Supervisors the power to determine contested elections and place the power with the Courts.

THE TEMPERANCE CAUSE.

The Temperance ticket cuts a sorry figure in the grand result of the recent election, or rather it cuts no figure at all. The leaders of that movement ought to be satisfied that they cannot expect to accomplish anything by taking their reform into politics. The people are opposed to sumptuary laws, and all regulations governing the appetites of men must be voluntarily assumed, for they cannot be imposed by legislative enactment. There is a class of unpleasant persons in the world whose peculiar affliction it is to imagine it their mission to reform all the rest of mankind, and the temperance cause has doubtless been more seriously retarded by the unwise, fanatical or hypocritical attitudes of such than by any other cause outside of the evil itself. Who can estimate the damage to the cause through the efforts of certain "temperance sharps" who have exalted the warning whine throughout the older States for years for political effect, the filling of their unprofitable mouths with bread, or the gratification of an inordinate self-conceit? There are, however, all over the land, men and women who keenly feel the tremendous importance of the question, and who are ready and anxious to work in any way that seems to promise good results. Probably no plan of operations can accomplish all that is desired. We are inclined to the opinion from what we have seen of its workings in various parts of the country, that the Good Templars combine as many excellent features as any temperance organization ever devised, and has accomplished already a great work. Intemperance is an insidious and almost invulnerable foe; and to be successfully fought its own tactics must be adopted. The champions of temperance must work incessantly and shrewdly. By boldly avowing extreme measures, as they have done heretofore, they may exhibit bravery, but it naturally arouses opposition from those who are disposed to be neutral; and it is from these that the temperance legions must be recruited. It may be a good thing to pull a drunkard out of the ditch, but it is a good deal easier and better to prevent him from getting into the ditch. Let the temperance people pay less attention to the confirmed sots, and more to the green material from which hardened drunkers are manufactured. Inspire the young of the land with a dread of the consequences entailed by drunkenness; teach them the folly and danger of tampering with strong drink, and then the temperance cause will have begun to accomplish an effectual work. The mission of the temperance people has mostly been directed to the reformation of old drunks—they have commenced at the top of the structure and sought to build down. For every inebriate they have succeeded in raising, a dozen whom they probably might have saved, have fallen; and the cause of temperance has been progressing like a craw-fish, backward. While, from its very nature, the subject of temperance ought to be kept out of politics, it is nevertheless plain that the temperance people need the assistance of politicians in their councils. Let them discard their fanaticism; dispell their visionary and impossible schemes and come down to work upon plain, practical, common sense principles, and the temperance cause may yet become a power for good in the land. But a few more farces like that performed by the temperance people in the late election, and the cause will fall into such general disrepute, that no amount of preaching and speaking can bring it again into prominence and respectability.

A STATEMENT is going about the press to the effect that all county and township officers elected at the recent election will take possession of their offices on the first of January. This is an error. Section 4109 of the Political Code did change the time from March 1st to July 1st, but the section was subsequently amended to read as follows: "All county and township officers, except judicial officers, Assessors, and Supervisors, must be elected at the general election held in September, 1873, and every two years thereafter, and hold office for two years from the first Monday of March next after their election; and the officers now holding shall continue in office until the first Monday in March, 1874."

INDIAN INSURRECTION.

Uprising of Savages in Eastern Nevada and Western Utah—Murder of Settlers and Miners and Destruction of Property.

EUREKA (Nev.), September 6.—Intense excitement prevails at this place, Pioche, Hamilton and Cherry creek on account of what seems to be a general uprising of the Indians in Eastern Nevada. The first news of the outbreak is contained in a dispatch stating that A. C. Cleveland, ex-State Senator, and Dan Murphy, an extensive cattle-owner, were held prisoners by the Indians at the ranch of the former in Spring Valley. Later intelligence corroborates the fact, and in addition the Indians have surrounded Patterson Station on the stage road to Pioche at that place. A skirmish has already taken place, and several whites have been killed. The pony-rider from Pioche arrived in Hamilton nine hours late. His horse was shot by the Indians, And he himself had a narrow escape from capture. The women and children of Duck Creek, Spring Valley and other places, are being brought into Cherry Creek for safety. The greatest excitement prevails throughout the country. The surrounding hills are illuminated by numerous signal fires and detachments of troops and volunteers have been leaving this place all day. The Eureka and National Guards, under command of Major J. H. Dennis, left early for the scene of action. Other parties are forming at Hamilton. A meeting of citizens was held this afternoon to take proper precautionary measures for the defense of that town. It is thought that the Indians will move on that place, as they are reported to be frantic with a desire to exterminate the whites. The ranchers along White river are sending up their families to Hamilton for safety. The cause of the outbreak is stated to be owing to the appearance among the Nevada Indians of a number of Indians from Utah, who have incited them to a general uprising against the inhabitants of the sparsely-settled settlement. It is also stated, on what seems to be good authority, that trouble arose owing to the failure of two prospectors to pay a number of Indians $50, as agreed on, in return for the latter showing the prospectors where they could find a fine body of ore. One of the prospectors named James Tollard was shot and killed, and his companion, Albert Leathers, succeeded in fleeing from them to Cleveland's ranch. The entire company is in arms and the Indians will meet with a hot reception from the troops and volunteers, now en route to the beleagured places. Your correspondent leaves at midnight for the seat of war.

Governor Bradley telegraphed to General Schofield as follows:

ELKO (Nev.), September 6.—*To Major-General Schofield, San Francisco:* Information most authentic from Pioche, Eureka, and Spring Valley all unite in demands for troops and arms. Am unable to furnish them. Dispatch just at hand signed by all Commissioners of Lincoln county says that three hundred Indians surround Batterson and Cove valleys, and that all Indians in Eastern Nevada appear to be on the warpath, and askes for two hundred guns and ammunition. Most reliable information from Cherry creek assures me that I am not misinformed. L. R. BRADLEY.

Last evening Governor Bradley telegraphed General Schofield that one hundred men had been organized, but that they were without arms and ammunition.' He asked that assistance be sent immediately, as the settlers in Batterson and Cove Valley and other points were menaced by the Navajoes from Arizona. The Governor hoped that assistance would be sent forthwith.

General Schofield, on the receipt of these dispatches, at once set about to provide assistance called for. Yesterday afternoon a portion of Company D, First U. S. Cavalry, were ordered from Benicia. They shipped on board the steamer *Julia*, and to-morrow will take the overland train from Sacramento. This is a portion of Captain Sumner's famous command, and will be joined by the rest of the company at Elko. On the the train this morning a detachment of the Twelfth Infantry from Angel Island will start for the scene of trouble, and in the afternoon one section of guns of Company B. Fourth United States Artillery (Hasbrouck's battery), from the Presidio, will follow. Captain Bryne, who gained celebrity as an Indian fighter in Arizona, will have command of the infantry. The whole expedition—which will be fully organized near Elko—is to be under command of Colonel Elliott, of the First Cavalry. Detachments will be sent from the different posts throughout this State. General Schofield does not anticipate any very serious trouble with the Indians, but thinks it wise to be well prepared for the "redskins." He was at his headquarters until a late hour last night, and he and Assistant Adjutant General Beck were completing their plans for a vigorous campaign.

INDIANS IN UTAH ON THE WARPATH.

The following dispatch was received last night from Salt Lake, indicating that the Indian outbreak is an extensive one, including the tribes of Eastern Nevada and Western Utah:

SALT LAKE, Sept. 6.—Troops were ordered from Fort Cameron to-day to quell the Indian disturbances in Spring Valley, Western Utah. A number of whites have been killed and much property destroyed.

AN "Old Subscriber" writes to the TRIBUNE to know if any of the "Oakland boys will be enlisted to subdue the Indian outbreak?" Inasmuch as the trouble will be likely to be confined to the State of Nevada and the Territory of Utah, it is not likely that California will be called upon for troops other than regulars. If Nevada should raise any volunteers any Oakland boys, who may be "spoiling" for a fight, will probably be able to get a chance by going over to the sage-brush country.

RALEIGH (N. C.,) September 6—The State Convention met to-day, 119 members present, with one vacancy, caused by the death of ex-Governor Gorham. Two ballots for President resulted in Ransom (Ind. Democrat) receiving 56, Docker (Rep.) 58. The two candidates voted scattering, leaving the result undecided. The Convention then adjourned until to-morrow. Intense interest is felt in the result.

NEW YORK, Sept. 6.—The *Evening Post* says: "Trade with the South is opening better than was calculated. A good business is expected with the West, and there is no disappointment in trade with the Middle and Eastern States. There is a caution and prudence manifested in trade this season, that has not been exercised since the panic. It is safe to assume that whatever business is transacted is done on a safe basis."

PHILADELPHIA, September 6.—At the Westervelt trial to-day, a number of letters to Mr. Ross, offering to return Charlie for a reward, were identified as in the handwriting of Wm. Mosher, who was shot at Bay Ridge, Long Island, while robbing a house.

MONTGOMERY, Ala., Sept. 6.—The Alabama Constitutional Convention met today. General L. P. Walker was chosen President by acclamation, the Republicans and Democrats all voting for him. His father was President of the Convention which adopted the Constitution in 1819, under which Alabama was admitted into the Union.

NEW YORK, Sept. 6.—The *Herald* says: "The advocates of sound currency would rejoice to see the Bank of California revive, and give a splendid example of the recuperative energy of a hard money institution. It would be a gratifying contrast to the great failures in the Eastern States."

MEMPHIS, September 6.—Jefferson Davis left here this morning to attend the Agricultural Fair at De Soto, Missouri. He goes thence to St. Louis, Kansas City and Fulton, and will extend his visit to Colorado.

NEW YORK, September 6.—The birthday of Lafayette is being celebrated by French and American citizens at the suburban parks.

A GOOD SUGGESTION.

We have received what the originators think is a tip-top suggestion, and it comes from a good Republican. The suggestion is based on the belief that, though the Republicans have lost the election, neither the county nor State will go to the "demnition bow-wows." It further has an eye to a worthy charity, as a fitting termination to an exciting campaign. Without further preface, it is simply and briefly this:

First—That a public meeting be called in the largest place that can be obtained, or at Badger's Central Park.

Second—That each and every candidate who has been before the people of the county, or of this township, shall be invited to be present and speak to the audience, occupying not to exceed five minutes' time.

Third—That any candidate wishing to be excused, can be, by sending to the committee $5.

Fourth—That the exercises be varied by good volunteer music, vocal and instrumental.

Fifth—That tickets of admission be sold at either fifty cents or $1—at the option of the purchaser.

Sixth—That all the necessary printing, advertising, labor, etc., be done gratuitously.

Seventh—That the entire receipts be donated to the Ladies' Relief Society, which is taking care alike of the destitute children of Democrats, Independents and Republicans, and helping people who are too sick and infirm to be either.

Eighth—That the occasion be one of general hand-shaking and good fellowship all round, and for the burying of all the animosities and bitterness of the canvass.

Ninth—That on the part of the ladies the Committee shall consist of Mrs. Edward Gibbons, Mrs. C. T. H. Palmer, Mrs. L. P. Fisher, Mrs. Jos. Dillon, Mrs. G. C. Potter, Mrs. O. H La Grange, Mrs. R. E. Cole, Mrs. G. M. Blake. On the part of the gentlemen, of Col. J. C. Hayes, Gen. J. C. Sullivan, Mr. J. J. Porter, Mr. A. C. Henry, Capt. P. S. Wilcox, Judge B. F. Ferris, Rev. J. K. McLean, Rev. Father King, Dr. E. H. Pardee; Judge Wm. H. Glascock, Mr. Hiram Tubbs, Mr. Isham Case, Mr. John W. Pierson, Mr. J. C. Beverly.

Tenth—That the Committee meet on Thursday evening, September 9th, at 7½ o'clock, at the rooms of the Oakland Library, to make the necessary arrangements.

We understand that a number of the candidates, among them Mr. Shanklin and Mr. Beard, have expressed themselves favorably concerning this thing, and will respond with pleasure, and we are sure that all will. The very novelty of the thing would make it a grand success.

Pleasant and Profitable Enjoyment "Beautiful!" "Charming!" "Oh, how lovely!" "What are they worth?" etc. Such are exclamations by those who see the large elegant New Chromos produced by the European and American Chromo Publishing Company. They are all perfect Gems of Art. No one can resist the temptation to buy when seeing the Chromos. Canvassers, agents, and ladies and gentlemen out of employment, will find this the best opening ever offered to make money. Notice.

CONSUMERS OF WATER FOR IRRIGATION purposes are hereby notified that the supply of water is so rapidly diminishing, that it will be absolutely necessary to limit the use of water on lawns and gardens to the least amount necessary to keep them alive during the remainder of the season. The water has been used for such purposes *too freely* heretofore, in spite of the earnest remonstrances of officers of the Company. All consumers will admit that they have scarcely been interrupted in their appropriation of the supply up to this time. It is now necessary to limit the use of water for irrigation purposes to twice a week, and in order that there may be a good supply, or head, to divide the city into districts, and give to each district certain days for irrigation. The following plan has been adopted, and it is hoped that consumers will aid the Company in carrying out the necessary measures:

First District—All that part of the city north of Fourteenth street and east of Market street, and all of East Oakland, irrigate on Monday and Thursday.

Second District—All that part of the city south of Fourteenth street and east of Market street, on Tuesday and Friday.

Third District—All west of Market street, Wednesday and Saturday.

It is thought that the increased force of the water secured by this plan will render its use far more satisfactory and effective.

Consumers are cautioned against the use of water at night, and are particularly requested to keep all their water fixtures in good order.

HOME SECURITY

Building and Loan

ASSOCIATION

Of Alameda County, Oakland, Cal.

Incorporated, July 21st, 1875

Capital Stock, $250,000,

Divided Into

1,250 Shares of $200 Each.

OFFICERS:

OFFICERS: President, Mack Webber; Vice President, H. W. George; Treasurer, Joseph Decht; Attorney, J. R. Glascock; Secretary, George George. FINANCE COMMITTEE: P. A. Murphy, M. G. King, Dennis Neatty. TRUSTEES: Mack Webber, P. A. Murphy, P. Bradley, Wm. Halley, H. W. George, M. G. King, A. D. Pryal, Dennis Neatty, George H. Clark.

OBJECTS.

The objects of this Association are to raise funds in shares, not to exceed $200 each, payable in periodical installments; and to make loans to its members for the purpose of aiding them in acquiring or improving real estate.

ADVANTAGES.

This Association offers better inducements to shareholders than any other corporation of the kind on this coast.

No shareholder can own more than 25 shares, and each shareholder can have but one vote.

No money loaned outside of the membership of the Association, and for no other purpose than acquiring or improving homesteads.

No shareholder is entitled to a greater loan than his shares represent at $200 per share.

Each borrower gets a rebatement of interest every twelve months.

Payments for stock are made in installments of 50 cents for each share, on the second and fourth Mondays of each month; fines and forfeitures being provided by the rules for failure in such payments.

Interest in all cases 7 3-10 per cent per annum, being 2 cents per day on a $100 loan, and only 20 cents per day on a $1,000 loan.

Enabling every shareholder to be his own landlord, and in a few years own his own home, with less average monthly outlay than his ordinary rent.

The shareholders elect their own Treasurer, Secretary and Attorney, besides the Trustees.

Meetings of Trustees open to all shareholders, and all loans made in open meeting to the highest bidder.

No snap judgment foreclosures; ample provisions being made for death, sickness, or other inability.

No officers except Attorney and Secretary receive fees from the Association, and the Association has no rent to pay; hence expenses are comparatively insignificant, and all the profits go to the shareholders.

A large part of the stock is already subscribed and within two weeks it is expected the entire stock will be taken and almost immediately thereafter bring a premium.

☞ Subscription books at the drug store of W. D. Conard, corner of 12th street and 13th avenue, Brooklyn, and at the office of the Association, at all hours of the day.

City Bills Due.

A number of bills against the city have been referred to the Finance Committee, and they will be reported upon at the next meeting of the Council, which occurs on the 20th inst.

The Public Water Tank.

Bids have been received by the city for the building of the salt water tank. Richard [illegible] offers to construct it for the sum of $1,[illegible], and the California Bridge Company place their figures for it at $[illegible].

The City Marshal's Work.

The report of the City Marshal shows that there were received during the month of August $[illegible] for general and trades licenses, $[illegible] for vehicle licenses, and $227.50 for dog licenses, making a total of $[illegible].

Changes in the Fire Department.

B. Hope has resigned as [illegible] of Hook and Ladder Company No. 1, and J. W. Voorhies has been elected to fill the vacancy. E. S. Hirshberg has also resigned as a member of the Department, and John Wagner now fills the vacancy.

Street Surveys.

City Engineer Arnold has presented the City Fathers a profile of Eighth avenue, from East Nineteenth to East Twentieth streets, also, a map of the survey made for the purpose of improvement of Market street, from First to Seventh.

Award for Supplies.

The following are the awards for city supplies: Bucher & Barker, for fuel; [illegible] for [illegible]; [illegible] for city [illegible]; F. W. B. Hardy, for stationery.

Railway Extension.

An ordinance was introduced into the City Council last night by Mr. Shanklin from the Judiciary Committee, and passed, granting the Oakland Railroad Company permission to lay another track on San Pablo avenue from Fourteenth to Fourth street.

Obituary.

Thomas Maguire, who has resided in this city for many years, and was favorably known, is numbered among the dead. His funeral will take place on Thursday morning from his late residence on Third street, between Webster and Harrison. Peace to his ashes.

Streets Deeded to the City.

Deeds have been received from John C. Hays and wife, deeding to city strips of land on San Pablo avenue, eighty feet wide, known as Lafayette street, the length of the Hays' tract of land, and also a strip of land eighty feet wide, known as Curtis street. The land has been formerly accepted by the city, and the deeds recorded.

Good Meals.

If you want a first-class dinner, at a moderate price, consisting of the best the market affords, of fish, flesh and fowl, cooked by a thoroughly competent chief, you need not go to the Maison Doree, but can get it at [illegible] Hotel Dining Room, Newlands Hotel, corner Seventh and Washington streets. Prices strictly moderate. A good stout boy wanted.

Cutting Down a Gum Tree.

One of the finest blue gum trees in this city was cut down this morning on Thirteenth street, at its intersection with Jackson street. This street has lately opened up and several trees stood in the roadway, which had to be cut down, and this was one of them. Its proportions were fair and its size so great, that we thought it a pity it should have to succumb to the blows of the axe.

Judicial Delegates.

The following are the delegates elected from this county to the Judicial District Convention, to be held on Thursday at two o'clock P. M., at the City Hall: W. J. Dinsmore, Noble Hamilton, Hemans Curtis, D. W. Newcomb, W. D. Bacon, J. W. Shanklin, F. K. Shattuck, Wm. Higby, C. H. Halle, H. F. Rector, F. H. Mulrow, George Smith, S. Wootton, J. A. Neal, E. Aubery, E. M. Dyer, R. A. McClure.

Fourth Soiree.

The fourth grand soiree of Messrs. Finkeldey & Schaub will take place at the Academy of Music, on Friday evening next, September 10th. Dancing will commence at 8 P. M. and continue until 1 o'clock A. M. The tickets will be fifty cents each, for gentlemen, ladies free. These young gentlemen bear a most excellent reputation for the management of these parties, and nothing by way of commendation is necessary.

Awarding Contracts.

The following contracts have been awarded by City Council:

For sidewalks on Pine street, from Goss to Lincoln streets, to D. Carlisle.

For sidewalks on Division street, from Wood street to the bay, to D. Carlisle.

For macadamizing of Franklin street to the Oakland Paving Company.

For grading, curbing and macadamizing Sixteenth street to the Oakland Paving Company.

Business Opportunity.

Oakland is a good place to carry on the boarding and lodging-house business. To any one desirous of obtaining a first-class, well established business of this kind, we would direct their attention to an advertisement on the second page of to-day's TRIBUNE. The house is centrally located, contains thirty handsomely and newly furnished, sunny rooms, all well ventilated. A lease will be given for about three years.

Ezekiels' Auctions.

To-morrow morning, commencing at 11 o'clock, Mark Ezekiels will offer for sale at his salesrooms, under the Grand Central Hotel, a large and desirable assortment of household of every description. On Thursday, Sept. 9th, at 12 o'clock, noon, at the same place, he will offer at auction two business buggies (open), one two-seat passenger wagon, with top, two family carriages, one top buggy (Eastern make), one top rockaway, and one exercising wagon. Also, a three-quarter light buggy, horse and harness, besides single and double harness, saddles, robes, etc. See full descriptive advertisement elsewhere.

Permission Granted.

In the City Council last evening, Mr. Miner, from the Street Committee, reported that the petition for a change of the width of sidewalks on Sixth avenue had been granted; also, for a sewer on Eighth avenue; also, that Mr. Chilson had been granted permission to connect his premises with a street sewer.

The Committee on Removals and Obstructions reported having granted M. C. Moore permission to construct a bay window in front of his store, No. 868 Broadway, and having granted permission for the removal of two oak trees on Sixth street, between Grove and Jefferson.

Messrs. Dunham & Lathrop's New Photographic Art Gallery, at No. 1151 Broadway, east side, between Thirteenth and Fourteenth streets, near the City Hall, is now open to the public. This is the only photographic establishment on the Pacific Coast, fitted up in Eastern style, where everything is on the ground floor, altogether dispensing with an "elevator" of stairs. Every style of work known in the business is here executed in admirable style, including the new promenade and [illegible]. Special attention given to children's pictures, locket work, copying and enlarging. Their work will also receive special attention. Terms always reasonable.

SEWER BONDS.

A Special Report from the Finance Committee of Council—They Censure the City Treasurer.

The following report was presented last evening to the City Council by its Finance Committee regarding the action of the City Treasurer on the sewer bonds:

Mr. President: The Finance Committee to whom was referred the matter of sewer bonds, etc., have examined the books, etc., of the Treasurer, Mr. Hillebrand, in accordance with resolution of instruction from City Council, and beg leave to report the following:

The sewer account was opened by Mr. Hillebrand, June 3d, 1875, and, on that date $40,000 worth of sewer bonds were sold to P. S. Wilcox, at par value, all of which are properly set forth in the Treasurer's books. Per contra, we find against this fund:

June 29, Alameda Macadamizing Co.	$3,383 76
June 28, T. J. Arnold	98 04
July 2, T. J. Arnold	777 78
July 6, Pacific Bridge Company	26,094 00
July 6, do Freeney	330 00
Sept. 3, Pacific Bridge Company	9,315 08
Amounting to	$40,000 00

The Committee also find that on June 28th, the city sold to P. S. Wilcox sixty thousand dollars' worth of sewer bonds at par value, and on that date the City Council did, by resolution, instruct the City Treasurer, Mr. Hillebrand, to deliver to said P. S. Wilcox, the said sixty thousand dollars of sewer bonds on the receipt of sixty thousand dollars in gold coin.

The Committee also find by interviewing Mr. Hillebrand, City Treasurer, that on or about the 24th of August he did deliver to Mr. P. S. Wilcox sixty thousand dollars of sewer bonds in gold coin as directed by resolution of City Council, he did accept and receive six certificates of deposit at ten thousand dollars each on Michael Reese, payable on demand to P. S. Wilcox and endorsed by said P. S. Wilcox.

Further, the Committee learn that Mr. Hillebrand has in person presented these six certificates of deposit to Michael Reese and demanded the gold coin, but could make no collections on said certificates of deposit.

The Committee further state that the only record of delivery of said sixty thousand dollars of sewer bonds was informal and subsequently erased by Mr. Hillebrand, and today no record can be found in the Treasurer's books of delivery of said sixty thousand dollars in bonds to P. S. Wilcox.

The Committee are of the unanimous opinion that Mr. Hillebrand has superceded his authority, but intended no wrong, and probably had not the financial crisis taken place, the certificates would have been honored and no interruption of the city's affairs taken place. While, on the other hand, the Committee feel like performing a duty in reprimanding Mr. Hillebrand, and to use the mild term, *censure*, does but to a limited extent express the unanimous feeling of the Committee; and for his almost unpardonable procrastination in the delivery of the bonds, there is no parallel or palliating circumstance by which a reasonable excuse can be offered, as nearly two months had taken place from the time that the Council ordered Mr. Hillebrand to deliver said bonds before he really executed the mandate of the Council.

All which we most respectfully submit.

E. H. PARDEE,
JAMES DODS,
URIEL HUNTINGTON, } Finance Com.

THE TRAIN JAMS.

Passengers in Hourly Danger—Immediate Relief Required.

On almost every trip of the local trains, especially on Sundays, and at Broadway station, the jams upon the platforms of the cars, caused by the opposing currents of passengers—the one endeavoring to get on and the other off—have become not only dangerous, but alarming. It is the wonder of everybody that some scheme is not devised by the proper authorities to relieve the traveling public of this great inconvenience and danger. At times the platforms become so blocked up that it is impossible for passengers to move one way or the other and the result is what we have described. The evil is one that demands a speedy remedy and the railroad people will be entitled to the thanks of the public by at once setting about a remedy.

In the absence of any official direction in the matter, we would suggest to passengers themselves to get on the cars at the east end and off at the west, both ways. Let all of our readers set the example and request their friends to do likewise. *On at the east end and off at the west end.* Try how it will work.

Work Ordered.

The following resolutions ordering work done were passed last evening by the City Council:

The laying of a sidewalk on Short street, from Pine to Cedar.

The sewering, with redwood plank, of Union street, from Railroad avenue to First street.

The sewering, with redwood plank, of Railroad avenue, from Poplar to Union streets.

The sewering, with redwood plank, of Poplar street, from Twelfth street to Railroad avenue.

The grading, curbing and macadamizing of Fourteenth street, from Washington to Market streets.

The grading, curbing and macadamizing of Fourth street, from Broadway to Market street.

The grading of Dolger street, from San Pablo to Telegraph avenues.

The laying of plank sidewalks on Market street, from Seventh to Twelfth streets.

The grading and curbing of East Twentieth street, from Sixth to Seventh avenues.

The grading of East Eighteenth street, from Twelfth to Thirteenth avenues.

New Patents.

Through dispatches to Dewey & Co., Patent Agents, S. F., we receive the following advance list of U. S. Patents granted to Pacific Coast inventors, viz: C. R. Donner, S. F., horse-shoeing tool; W. Eppelsheimer, S. F., device for propelling cars; W. Eppelsheimer, S. F., means for turning cars on short curves; A. Paraf, S. F., fluxing composition; J. Walker, Sonora, Cal., stamp mill feeder; M. P. Boss, Virginia, Nev., distributing quicksilver in quartz mills; A. S. Bucklow, Colusa, Cal., watch-case spring; P. Hinkle, S. F., device for operating throttle valves; W. H. Richardson, S. F., air and water heater; F. H. Ruhl, Stockton, Cal., lift pump valve; J. Steiner, Mendon, Cal., wagon wheel; L. D. Stephens, Gold Run, Cal., ore washer; Kwong on Cheong, S. F., trademark for tea.

Wanted Reimbursement.

Among the several petitions upon which the City Fathers were called to act, last evening, was one from H. Maloton, a saloon keeper at the corner of San Pablo avenue and Twenty-second street, for $600 damages claimed to have been sustained by loss of business during July and August through the running of the main lake sewer across San Pablo avenue.

The reading of this caused considerable merriment. One member facetiously suggested that the matter be referred to the Committee on Fire and Water. It was subsequently laid on the table, where it is likely to remain for an indefinite period.

Police Court.

Charles Hoffman was mulcted in $10 for disorderly conduct by the Judge of the Police Court this morning, while John Jones and Charles Sherman had each to pay $6 for spreeing it too heavily. P. McFadden was arraigned for disturbing the peace, but he was discharged upon paying the costs, as his case was not of an aggravated character.

Carelessness.

Seventeen letters and postal cards are detained in the Postoffice in this city, either for lack of postage or unintelligible superscription.

Enjoy the Luxury of an Easy Shave and the advantage of having your Hair Carefully and Scientifically Cut, by going to the Grand Central Hotel Shaving and Hair Dressing Saloon, Twelfth Street. Easy chairs, good razors and polite attention. SAMUEL PARSONS Proprietor.

EQUALIZATION.

The Last Meeting of the Board—Reduction of Assessments.

The City Board of Equalization held its final meeting last Saturday afternoon, and having considered all applications for the reduction of assessments, the following resolution was adopted:

Where to Go.—If you wish to hear superior music, and indulge in a glass of beer, go to the Teutonia Hall, 473 Eighth street. There is no better place in town. All kinds of wines, liquors and cigars. Beer, 5 cents. An elegant $5,000 orchestrion has just been put in.

LOCAL JOTTINGS.

An Extended Summary of Interesting Matters Pertaining to Oakland.

Eight arrests were made yesterday.

The streets are a little worse for the accumulated dust.

Lynch has won it, as a matter of course, his majority being one.

The arrival of wheat yesterday aggregated twenty-seven car loads.

Some of the dirt on Broadway has been removed by the industrious scavengers.

The chain gang is working upon the streets under the superintendency of officer Carlton.

A sewer on Eighth avenue, from East Tenth to East Twelfth street is in contemplation.

Joseph M. Wallace has been elected a special policeman, but no pay attaches to his position.

The receipts of the City Wharfinger, Captain Harwood, during last month, amounted to $483 31.

During the past forty-eight hours, several cargoes of redwood lumber have arrived at our wharves.

The recently elected officers will assume their official positions on the first Monday in March next.

The new police and fire alarm telegraph poles are being put up between the City Hall and the East Oakland police station.

The City Clerk has been ordered to advertise for a lot in East Oakland upon which an engine house shall be erected.

Monday, the 20th inst., has been set apart for the hearing of objections to the opening of Market street from First to Seventh street.

A hydrant is to be erected on the corner of East Fourteenth street and Fifth avenue, and another on the same street at Ninth avenue.

A man fell down yesterday afternoon on Broadway, near Seventh, and caused considerable consternation. He finally recovered and went on his way rejoicing.

An ordinance was passed by the City Council last night, changing the width of sidewalks on Sixth avenue, from East Ninth to East Eleventh street, from 14 55-100 feet to 12 feet.

A petition for a recount of votes was received by the Board of Supervisors yesterday from Thomas O'Neil, one of the candidates for Sheriff, but its prayer was not entertained.

In a day or two the exact time for opening of the Bank of California, for the resumption of business will be announced by the Syndicate. Already $7,000,000 have been subscribed toward the guaranty fund.

The San Francisco Fusileers, Co. C, Second Infantry, Captain Geo. Cantus, made an excursion to Schuetzen Park, Alameda, on Sunday, for the annual target practice of the company, and for the usual prize shooting.

The property known as the Ghirardelli block, No. 21, bounded by Clay, Jefferson, Second and Third streets, was sold through the real estate agency of E. W. Woodward & Co., yesterday, to Gideon Woodward, of Gilroy, for $22,000.

The fashionable young lady who is attired in the latest style, says to herself as she promenades Broadway: "My boots are new, my garters too, my 'pull-back's' fit is splendid, for, thanks to pins, my dress begins just where Eve's costume ended."

A Luxuriant Residence.

The new residence of Mr. Walker, on Twelfth street, promises to be the most expensive and luxuriant on this side of the Bay. Money is being lavished upon it with an unsparing hand, and everything that taste can contrive is being bestowed upon it. The grounds are being laid out in the most scientific manner, and the choicest plants and shrubs placed in them. Men are now at work constructing an artificial stone sidewalk around the whole block, and similar walks and drives through the grounds, the same as those lately laid down by Messrs. Duhrkoop & Goodman on Jackson street. The carpets for this extensive residence, we are informed, were purchased at Stewart's, in New York, and cost $20,000. They have been especially woven to fit the rooms, and men from that celebrated establishment are now engaged in laying them down.

EAST OAKLAND ITEMS.

Dastardly Outrage—Unnecessary Outcry—Judge Earl's New House—Fine Neighborhood—Sewer through Ninth Avenue, Etc., Etc.

On Sunday evening last a dastardly outrage was committed in East Oakland, by some brute in the guise of a man. It appears that Mrs. Axtell, wife of the proprietor of the Railroad Restaurant, near the depot, was standing at her door, when a man who was proceeding to the cars, stopped and slapped her in the face, and then went on board the train. Soon after it was ascertained who the offending party was, but he was, fortunately for him, out of reach of the punishment he so richly deserved for his cowardly conduct. The law, however, will probably reach him.

It appears that the outcry in East Oakland, yesterday, about the omission of Mr. Henry Robinson's name from all of the ballots cast in the second Brooklyn precinct, was altogether unnecessary as some 30 ballots in that gentleman's favor as State Senator, were counted by the Board of Supervisors.

Judge Earl, late of Nevada, is building a handsome house, the cost of which will be about $6,000, on Adams avenue. Mr. John Taylor is the builder.

When Captain Badger opened his beautiful place as a public park, about three years since, an outcry was raised against it by some parties who persisted that it would have an injurious tendency and depreciate the value of property. The contrary is the result, some of the finest houses in Oakland having been erected in that neighborhood, both east and west of the park, since then, making it a very fine neighborhood.

A sewer is to be constructed through Ninth avenue, which will drain the hollow, now partially filled up, on the north side of Badger's Park.

It appears that the Commerce street project is dead for the present, and that most desirable improvement will not be proceeded with.

Harry Morse, Charles Palmer, P. R. Borein, and A. A. Moore, county officers, are all residents of East Oakland. Brooklyn gave all a heavy vote, but Sheriff Morse is the only man of the lot who was elected.

Mistaken Identity.

Many of our readers will remember an account of the arrest of one Edward Greene in this county on the 9th of last month, he being, at that time, charged with the larceny of a horse in San Luis Obispo county. He was taken there by an officer, and after undergoing searching examinations before a Justice of the Peace and a Grand Jury, was released, it being satisfactorily proven that he was the wrong man, and not a thief. After losing a month's time and enduring incarceration in jail during that period, he was released. Some of the citizens were liberal enough to subscribe money to enable Green to return home, and it is hinted that it is not improbable that an action for false imprisonment may be instituted.

Complimentary Benefit.

The friends of John Guerin have tendered him a complimentary benefit. It is to take place at Maguire's Opera House on Saturday evening, on which occasion a very interesting bill will be presented. Mr. Guerin is an amateur of a high order of talent—a gentleman who never has followed the stage for gain, though on frequent occasions he has volunteered his services in behalf of those whom misfortune had overtaken. He is a comedian of rare ability and represents Dutch and Irish characters in their most comical phases. He ought to be well patronized, and we believe there will be a large turn out of his friends and the public in general on Saturday night.

Teachers' Examination.

The examination of applicants closed last evening. The City and County Superintendents assisted by some of the Examining Board are busy to-day making up the results. It will be a day or two yet before these can be fully announced. The candidates at the recent election are probably in better condition than any one else, to sympathize with the young ladies just examined, in their anxiety to know the result of the counting, and their fate.

When sets a Planet on the starry plain
Combine the good its virtues to proclaim

Rounded his soul as some symmetric sphere,
Attuned to deeds of highest atmosphere
Like those in life that partial parts perform;
Sheltered as grass by smallness from the storm,
This Titan died. Spurned his ship the shore
Of Ocean's uses high Ambassador
None can but honor him forevermore.

Dr. Barlow J. Smith's
REFORM
MEDICAL
AND
SURGICAL INSTITUTE.

By combining Hygiene, Medicines and Surgery in this Institute, we can treat more successfully than can be done in any larger hospital, the following medical and surgical diseases: Paralysis, in its various forms, as Haemaplegia, Paraplegia, Paralysis Agitans or Saint Vitus' Dance; Rheumatism, Gout, Neuralgia, Dyspepsia, Constipation, Liver and Kidney Diseases, as well as Consumption, Bronchitis, Catarrh, Asthma, Anaemia, Chlorosis, and all Female Diseases, as Prolapsus, Ulceration, Retro and Ante Version and Flexions, Hypertrophy, Chronic Inflammation and Ovarian Tumors.

Cutaneous Diseases—Simple and specific (after the mode of Prof. Von Hebra, of Vienna); Scrofula, Glandular Enlargements, Cancers, Varicose Veins, etc., etc., as well as the various Surgical operations for Haemorrhoids, Varicocele, Hydrocele, Fistulae, Prolapsus Ani, Urethral Stricture.

THE NEWLY INVENTED ELECTRO
Horse Shoe Magnet,

Which we are now employing in the relief of pain, and cure of diseases, is the most powerful remedial agent now known to modern medical science for relieving all Spinal Complaints, Weak and Lame Backs, and overcoming congestion in the weak parts. Its effects in the treatment of Rheumatism, Neuralgia, Gouty conditions and Paralysis are truly magical. Enlarged Joints, Tumors and Glandular Swellings rapidly disappear, through its agency nervous organisms are revitalized, debilitated systems rapidly restored, and all muscular power wonderfully energized.

This wonderful electro magnetic agent, in conjunction with medicinal and surgical remedies, Hygiene and the entire Water Cure appliances, and nourishing healthful diet will thoroughly restore in from three to six weeks the great majority of all those who utterly fail from ordinary medication, to obtain permanent cures of Impotency, Nervous and Vital Debility, and because of the growing tendency of this class of diseases, and the almost universal success attending our treatment of them for the past seventeen years in this city, I feel warranted in making their treatment a special feature of the institution and invite attention to the [illegible].

Nervous Diseases of Males.

As we view the nervous system of the Mind, as the result of this complex nervous structure, and the Brain as the representative mental organ, there appears to us no good reason for throwing around the diseases and weakness growing out of the misuse and abuse of this part of the human organism. It is undeniable, even in refined society, that there is a growing tendency to all forms of disease associated with the cerebral, sensitive or sensuous system, but in this fact there is no mystery or cause for wonderment when we take into account the artificial habits that society has systematically taken on during the last half century. While every device for the incitement of mental development in the youth of both sexes that wealth can lavish, ambition and art can devise and bring to bear, the only opportunities left for the reasonable mind to wonder at are our domestic homes, Almshouses, Homes for the Inebriate, and Lunatic Asylums, groaning as they do with the physically depleted and overwrought mental wrecks. When we contemplate the millions expended in furnishing to the human economy, wines and liquors, tobacco, tea and coffee, spices, sweetmeats and condiments, which but act as fuel to burn out the accumulated vitality of man, and destroy the equilibrium between mind and body, together with that unwarrantable concentration of foods which rob the body of generous growths, clogging and vitiating the blood, and rendering necessary the expenditure of millions more for poisonous drugs to counteract the same. We ask, in view of these facts, whence comes the mystery?

That undue Sexuality, Nervous Disease and Weakness, Spermatorrhoea and Impotency, is the curse of the American people.

It must be clearly manifest to every intelligent observer that the class of diseases and weaknesses known as relating to the nervous and generative organism, are greatly on the increase throughout the United States, and the man who comes up to the perfect standard of nerve, vital, sexual health and strength, is the rare exception rather than the rule, and that nervous debility, which occasions involuntary discharges of the seminal fluids, through the agency of lascivious dreams, or that causes its escape through the urine, or by the effort to evacuate the bowels, or from playful fondling, is now commonly claimed by the profession to be the result of early personal indulgence or excessive intercourse, as well as that weakness or utter loss of nervous and muscular power and partial impotency, so common among the youth, middle and aged men, and while we are free to admit that these are among the prominent causes, we claim that there are other and still more potent and common causes, of which the great majority of mankind are unacquainted, and which must be taken into consideration before radical cures can be effected, and which, too, find almost universal acceptance in the so-called refined and polite society, and are only avoided by the enlightened physiologist and hygienist, which are as follows: The use of wines and all the varied alcoholic beverages, tea, coffee, spices, saccharine confections and condiments, together with the almost universal use of concentrated, constipating foods, pastries composed of equal parts superfine flour, grease, sugar and seasonings, depriving blood, "the staff of life," with the phosphates, lime, muscle, nerve, brain, and bone forming materials left out; added to these is the excessive use of common salt and soda, saleratus, cream of tartar, materials especially irritating and inflaming to the mucous membranes, kidneys, stomach, bowels, bladder and urethra. Following in the wake of these irritants come nerve excitements, in the varied uses of tobacco, opium; and linked to these more or less follow the train of poisonous drugs to destroy and battle against the nerve, vital and physical powers. To this most deplorable devastating class of afflictions which leave the system in that debilitated and unvitalized condition that destroys the manly vigor and enterprise, moral courage, love and congeniality, producing indifference to the social relations, destroying memory, blighting hopes and future prospects for social life; destroying also those delicate sensibilities, the electro-nervous and emotional pleasures that come to every well organized human being. And to counteract all these unfortunate diseases and conditions, the regular profession offers what, as a more curative? But little more than tonics, stimulants, nervines, sedatives and cauterizing medications, except it be to advise the young, after all other restoration through these malignant means have failed, either marriage or recourse to promiscuous coitive indulgence, and the result is, in the great majority of instances, just what we might rationally expect—not only a failure of cure, not only imperfectly cured conditions, but in the majority of instances, the patient finds himself broken down in his hopes, his vital and physical integrity weakened, and his better chances for permanent recovery taken from him, and is, in many instances, left in a state of imbecility and impotence. While we recognize, and propose to employ all medicines as may be useful in giving tone, or in gently stimulating, or in quieting the nervous or medicinal system, yet we hold these agents in complete subjection to the more powerful and permanent means of restoration offered through the various agencies of hygienic medication, namely: the electro, sweating, deterging and medicated baths that remove more quickly, yet quickly, those secretions that irritate the urinary and generative organism than any other known agents. We employ and call into exercise the various nerves and muscles that create a demand for those choice vital fluids that give tone and thereby change the habit of seminal emissions into growth and physical improvement. We provide and urge into common use that form of diet best calculated to nourish the system and least disposed to excite the passions and emotions. We employ hip baths, spinal spray baths, and a great variety of water appliances that are calculated to quietly regulate the circulation and give tone to the muscular and nervous systems. Not only this, but we seek through our advice and private lectures to our patients, to inform them in regard to every social and sexual propriety, and by these varied means succeed in restoring nearly every case that comes under our medical supervision. And during our fifteen years of daily consultation in this class of cases, we have failed to learn of a single person being cured where drugs alone were employed, and hygienic medication neglected; and we take pleasure in affirming that during the past fifteen years those young men who have remained at the Cure and treated with us from four to six weeks, have almost universally left our Home, so far restored to their former nervous, muscular, vital and mental integrity that whenever it has been our good fortune to meet them years after treatment, we have universally received their congratulations not only for the cure effected by our system of medication, but for the enlightenment they have received, and the immeasurable benefit which it has proven to them.

Important to Invalids.

DR. SMITH makes the claim that mind is simply organized sensation, and that each mental organ of the brain is directly connected with some vital organ or function of the body, and also that the form and size of the various phrenological organs determine the relative strength of each vital organ of the body with which it is connected; for instance: Firmness and Self-esteem, determines the strength of the spine or back bone; the organ of Hope, the strength of the Liver; Conscientiousness, the strength of the Kidneys; the organ of Faith, measures the size and power of the Heart; Veneration, the natural strength of the Stomach. The Cerebellum or organ of Amativeness, determines most fully the Genital and Uterine or Reproductive power of either male or female. Hence, by a Phreno examination, DR. SMITH is able to determine at once the specific disease to which each individual is hereditarily predisposed. Examinations and consultations free.

Glass in France.

The Paris correspondent of the *Pall Mall Gazette* mentions that, taken in connection with the glass exhibited in Japan, and said to be over 1,000 years old, an article by M. De Foville in the *Economiste Francaise* may be read with interest. That gentleman says that France long remained indebted to Italian art in the matter of glass, although in the sixth century drinking glasses were manufactured at Paris and Quiquengrogne. But in 1342 we find a Dauphin paying for a little glass service for his daughter Diana the price of an ox. Some of the most curious windows in the Gothic cathedrals date from the thirteenth, twelfth, and even eleventh century, but it was only under Louis XIV. that France appropriated the secret of those exquisite productions which Venice sold her for their weight in gold. There are now in France 175 glass manufactories, without counting seven manufactories of looking-glasses. Every year on an average 125,000,000 bottles are made, and 50,000,000 of these, filled with good wine, find their way abroad, together with about 20,000,000 empty bottles. Forty years ago 100 bottles cost about thirty francs; now they cost half that price. According to M De Foville, the invention of glass deserves to rank with printing and steam as an agent of civilization and refinement, for it rendered indoor life possible. There are proofs, he says, that glass existed in the early days of Christianity, but it was an exceptional luxury which did not survive the fall of the Roman Empire. The window pane reappeared at a later period in the churches under the form of small lozenges of equivocal transparency. At the castle of the Duke of Northumberland in 1567, says the writer, there were a few glass windows, which used to be put in when his grace was at home; and not a century ago there existed in France a corporation of "Chassissiers," whose profession was to put in windows of oiled paper. It was only in 1710 that glass panes in wooden frames were used.

Civility is a Fortune.

Civility is a fortune itself, for a courteous man always succeeds well in life, and that when persons of ability sometimes fail. The famous Duke of Marlborough is a case in point. It was said of him by one contemporary, that his agreeable manners often converted an enemy into a friend, and by another, that it was more pleasing to be denied a favor by his grace than to receive one from any other man. The gracious manner of Charles James Fox preserved him from dislike, even at a time when he was, politically, the most unpopular man in the kingdom. The world's history is full of such examples of success obtained by civility. The experience of every man furnishes, if we recall the past, frequent instances where conciliatory manners have made the fortunes of physicians, lawyers, divines, politicians, merchants, and indeed, individuals of all pursuits. To men, civility is what beauty is to woman—it is a general passport to favor—a letter of introduction, written in language that everyone understands.

Dog Law.

A citizen of Gratiot avenue called on the Chief of Police yesterday, and without any skirmishing around he inquired:

"Isn't dere zome law about dot?"

"What is that?" asked the Chief.

"Can dot be dot a feller shall call his dog 'Bismark?'" replied the man.

"Why, a man can name his dog any name he wants to, I suppose."

"He can?"

"Yes."

"And dot man shall call his dog Bismark."

"Yes."

"And ze law ish no goot?"

"No."

"Hi! ha! I shall go out my house and name my dog Shorge-Vhashington-Sheneral-Grant-Bestmeister-Shewell—pooty quick!"

And he was red in the face as he left.—*Detroit Free Press.*
